It would be nice for users to be able to anonymously rate routes around the campus to help with statistics.

This task is a functional requirement and will be split into sub-tasks if necessary.

 PY ppyordanov added **WOULD** **FUNC REQ** labels on Oct 25, 2014

User requirement:

As a user, I would like to be able to improve statistics by rating my favourite routes / locations around Glasgow University campus.

Non-functional requirement:

It would be nice to rate routes based on personal experience. I should be able to learn how to do this within an hour of using the system.
